

BBCO Community Meeting Overview

Montrose – April 2, 2019

On April 2nd, 2019, the non-partisan “Building a Better Colorado” project hosted a 2-hour meeting with 60 civic leaders in Montrose to solicit their input on how Colorado might improve state fiscal policy to support Colorado’s quality of life. Specifically, BBCO raised for discussion the three fiscal amendments which Coloradans have adopted into the state constitution: the Gallagher Amendment (1982), the TABOR Amendment (1992) and Amendment 23 (2000).

Attendees were seated at round tables of 8 to facilitate small-group discussion of the issues and potential policy options. Each participant was equipped with a keypad voting device to enable them to anonymously vote their opinion on the questions posed to the audience.

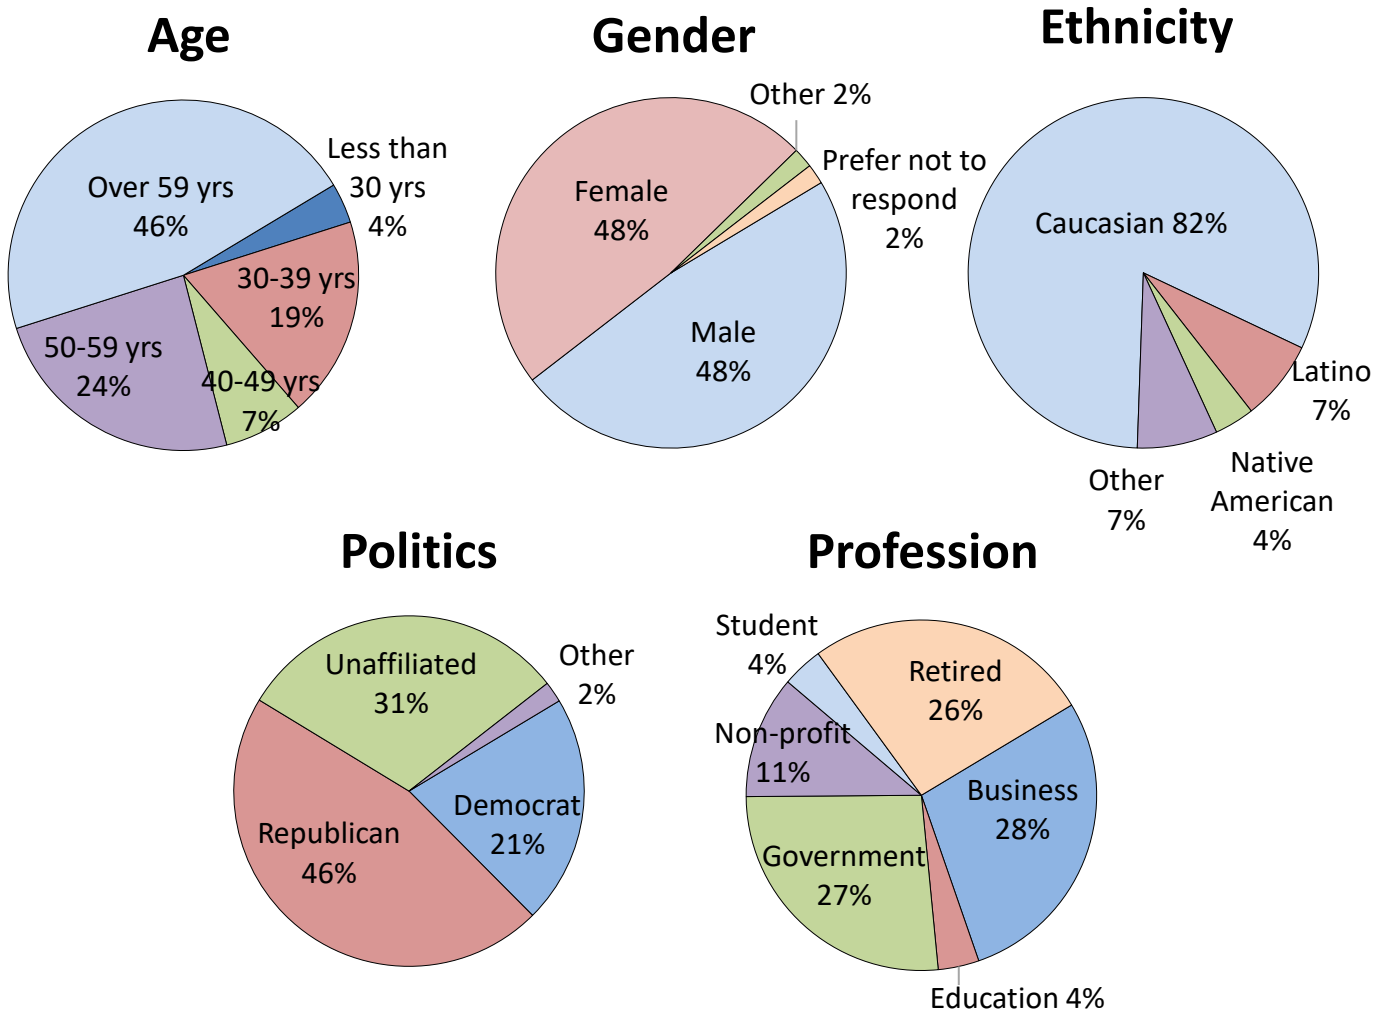

While BBCO defined the scope of the discussion, BBCO gave control of both the input and the outcome of this conversation to the participants.

- BBCO worked with established community leaders to build the guest list for this meeting of individuals in the community who were respected, influential and constructive and who collectively represented the diversity of the community.
- After presenting a brief explanation of each policy issue, the first option which BBCO asked participants to consider in each policy area was the option of doing nothing. BBCO made clear that if a majority of participants supported this option of status quo, then no additional policy options would be considered for that policy.
- BBCO invited participants to propose their own additional policy options and presented those organic ideas to the full group for consideration.

Audience Demographic

The political mix of the audience leaned strongly right with a Democrat/Republican/Unaffiliated ratio of 21/46/31 compared to the voter registration ratio of 17/47/35. While the Gender, Profession, and Ethnicity demographics were fairly representative of the broader community, the audience was disproportionately older (70% over 50 years old).
